

# Crossweave

by *moda*

**NOVEMBER DELIVERY**

Dimension. Depth. Color. Those are all words that are used to describe crossweaves, a fabric woven with warp and weft threads of two different colors. As with chambrays, the two colors give the fabric a new kind of energy.

For 2022, Moda is introducing a new collection of Crossweaves, closer in weight and hand to our quilting cottons, and in a vibrant selection of color combinations, many chosen to work with the collections of Moda's Designers.

\*\*The "warp" threads run lengthwise, and the "weft" is the crosswise threads.
